#### ***Ratification of the Framework Agreement entered into by the Company on June 23, 2020.***

The Company entered into a framework agreement with South Lake One LLC (“**South Lake**”), Fenice Investment Group LLC (“**Fenice**”), Pashupathy Shankar Gopalan, Anil Jain, SILRES Energy Solution Private Limited, Pashupathy Capital Pte. Ltd, Sherisha Infrastructure Private Limited, Sherisha Technologies Private Limited (*promoter of the Company*) and Avyan Pashupathy Capital Advisors Private Limited on June 23, 2020 (“**Framework Agreement**”), with an objective of laying down the framework for:

1. SILRES Energy Solutions Private Limited) to receive an investment of USD 2,500,000 (United States Dollars Two Million Five Hundred Thousand) from Fenice and USD 10,000,000 (United States Dollars Ten Million) from South Lake;
2. restructure the businesses of the Company and its subsidiaries to, *inter alia*, separate the under-construction solar power projects and the commissioned solar power projects (“**Internal Restructuring**”);
3. transfer the Identified Businesses (described in Item No. 3 below) to SunEdison Energy Solutions Private Limited (*a related party of the Company under the terms of Section 2(76) of the Companies Act, 2013*) (“**SESPL**”), as a going concern on a slump sale basis, under the terms of a business transfer agreement to be entered by the Company with SESPL.

The Company has, over the last 2 (two) years, operated a successful engineering, procurement and construction (“**EPC**”) business and has, over the last 2(two) years, acquired multiple companies that have been awarded rooftop and ground mounted solar power projects by various private and government off-takers.

The Company has, either directly, or with the financial support of companies forming part of the Refex group (companies promoted by Mr. Anil Jain, the promoter of SunEdison Infrastructure Limited), funded several of these project companies that are subsidiarized under the Company, to enable these project companies to complete the construction of their solar power projects and have these projects commissioned. Over these years, the management of the Company has come to a conclusion that external equity funding is critical for the solar power projects at several of the subsidiary companies to be adequately financed. The Company, accordingly, entered into the Framework Agreement to set out the broad parameters on which the Company will sell certain of its businesses, including the project companies subsidiarized under the Company(described in Item No. 3 below as the “**Identified Businesses**”), to a company funded by Fenice and South Lake.

The transfer of the Identified Businesses on a slump sale basis, will be undertaken under the terms of a business transfer agreement to be entered by the Company with SESPL on an arms-length basis and in compliance with applicable law.

Upon completion of the slump sale of the Identified Businesses, the Company will retain certain segments of its businesses and continue as a going concern,including the engineering, procurement and construction business of the Company pertaining to: (a) Sherisha Rooftop Solar SPV Four Private Limited; (b) Kiln Solar Energy Private Limited, and (c) Diwana Solar Power

Project. In keeping with the skill sets and expertise developed by the Company over the years and in compliance with certain contractual constraints in continuing the same line of business post transfer of the Identified Businesses, the Company intends to venture into operating a business of providing EPC services in India for:

1. construction of roads, flyovers and large-scale commercial construction projects;
2. developing electrical transmission lines for various Governmental transmission line corporations;
3. developing overhead lines for Indian Railways;

The Company also proposes to enter into the business of providing Engineering & Construction (E&C) services, for developing electrical transmission lines such as (a) transmission lines for the government; and (b) overhead lines for the Indian Railways. Further, the Company will also be entering into the business of providing operation, maintenance and power plant services which focus on the (a) Independent Power Producer (IPP); and (b) Small Power Producer (SPP) markets in India.

The Company intends to initiate activity in some of these divisions, promptly after the transfer of the Identified Businesses to SESPL is completed.
